

6-12 months old

Checklist: Safety at Play

CHILDSAFETYLINK
Here for you.

Use teething toys and gentle gum massages instead of teething jewellery.

Send in the warranty card for new baby play equipment.

Place baby seats and play equipment on the floor to prevent falls.

Check for recalls on baby equipment and toys at <http://healthycanadians.gc.ca/recall-alert-rappel-avis/index-eng.php>

Choose larger toys without sharp edges, magnets or batteries.

Be aware of what your baby can reach for when he or she is playing on the floor.

Get down to your baby's level and remove any small items, hot items or cords within reach.

Remove toys from crib before putting your baby down to sleep.

Remove mobiles as soon as your baby can sit or pull him or herself up in the crib.

Child Safety Link: a program of the IWK Health Centre. Here for you with helpful information to keep your children safe. CSL-2016
